

ACIDS AND BASES

HOMEWORK

1.

- Select one of the drain cleaners or tile cleaner/stain remover products you use at home.
- Find the SDS and identify the ingredients and the pH of the product. Print the SDS.
- Write down the following information (for each product):

Manufacturer: _____

Product name: _____

Ingredients: _____

pH: _____

This product is a (*circle one*): acid/base

List the warning words shown in the Section 2 of the SDS sheet: _____

List the warning words shown on the product label/container: _____

Do these 2 lists match? If not, what important information is NOT shown on the label?

What PPE should you use when handling this product? _____
(compare your answer with the manufacturer recommendations in Section 8 of the SDS)

2.

Read the **Factsheet- Hydrofluoric Acid** found in the “I want to know more” folder.
