

## MODULE OVERVIEW

This module presents information on work tasks that generate exposure to noise and eye hazards. Selection, use and care of personal protective equipment are discussed.

## OBJECTIVES

After completing this module you will be able to:

- Identify tasks that generate exposure to noise and eye hazards.
- List the symptoms associated with temporary and permanent hearing loss.
- Explain how to select, use and care for eye and hearing protection.

## CLASSROOM (10 min)

PowerPoint presentation

## LAB

None

## HOMEWORK

- **Eye & Hearing Protection - Refresher - Homework.pdf** – students learn about eye emergencies - causes, symptoms and first aid.
- **Quiz - Hearing Protection**
- **Quiz - Eye Protection**

## ADDITIONAL RESOURCES

**“I want to know more” folder** – information about personal protective equipment, Hearing Conservation Program, information on how to reduce noise generated by CNC machines, and noise exposure in metal sheet fabrication.
